

# **ANNUAL GENERAL MEETING APRIL 5th, 2025**

-----

## **SUMMARY OF ACTIVITIES 2024 ACCOMPLISHMENTS**

As in previous years, our main actions focused on education and care for the most deprived.

### **1. EDUCATION**

- **Renewal of purchases of supplies (€8,830 or \$10,020)**

The association funded school supplies for the 2024/2025 school year for 1,478 primary and secondary school students. Parents once again contributed €1 per student. This year again, our goal was not to exceed this amount.

- **Equipment: Purchase of 3 fans (€201 or \$230)**

An "express" request was made by our Vice-President, Christine, for the purchase of 3 fans, 2 for a class of 67 students and a third for another class of 50 students.

## **2. HEALTH**

- **Care for the most deprived (€2,019 or \$2280)**

In the three municipalities (Namakia, Mitsinjo, Antongomena), the number of patients reached 849, which was 85 more than in 2023. The main illnesses were viral influenza and malaria almost year-round.

We also noted that the cost of care per person had increased by 0.30 cents, due to the rise in the cost of medication

## **3. Projects not completed in 2024**

- **Equipment for schools: Still waiting for a quote.**

Lime for the buildings of 6 schools & anti-rust paint for a roof

- **Dental hygiene awareness in schools (€500 or \$570)**

Oral hygiene training could not be carried out as planned in 2024 due to the lack of availability of caregivers from Majunga.

- **Medical Office Equipment (€500 or \$570)**

Examination table

Oxygen extractor

This equipment has been put on hold to facilitate the ever-increasing care needs.
